

OneBiome service

I am considered as a biological waste - But I'm also a reflection of your gut microbiome! Did you know that I contain multitude of microbes that can be seen as valuable data? These data can reveal the state of your health.

- **Build a strong foundation for your child's health by learning more about the state of her/his gut microbiome**
- **Your child's gut microbiome has a key role in shaping a healthy gut and strengthening immunity**
- **Analyze your child's poop/ microbiome sample with our OneBiome service**
- **Get a personalized report with actionable food tips to support a healthy gut**

-Collect your child's poop sample

-Send the poop to the OneBiome research center

-Onebiome will analyze the microbes in the poop sample

-Visit the OneBiome website

-Complete online questionnaires

-Get access to some educational contents on early-life microbiome

-Receive your child's personalized report with her/his microbiome results

-Use the actionable food tips to support a healthy gut
